

#### GUMPTION.

NE does not have gumption till one has been properly cheated." Persons of gumption are using Ivory Soap, women who have trusted themselves too near the precipice of false economy and who can now appreciate the true economy in a soap made of pure vegetable oils and other high-class ingredients, but made in such quantity as to oring the price within the reach of the very poorest family. Indeed it is the very poor who most need it, for they can least afford the extravagance of common soap. COFFEIGR T 1850 BY THE PROCTER & GAMBLE CO. CHICKBATS

SIDE BY SIDE. McKin' .ey and Roosevelt Stand at the President's Home.

Canton, Ohio, July 7.—The home city of the president yesterday accorded to his coffeague on the Republican national ticket an ovation almost unprecedented even in Canton. It would be hard to say whether citizens of Canton ever say whether citizens of Canton ever voiced a more demonstrative welcome to President McKinley or to Governor Roosevelt, but it may be said with truth that Canton did not discriminate in the demonstration, the first occasion on which the Republican candidates for president and vice president personally met since the Philadelphia convention.

for president and vice president personally met since the Philadelphia convention.

Governor Roosevelt arrived in Canton over the Valley road at half-past five. His only companions from Cleveland to Canton were the newspaper men who have accompanied him on his long trip to Oklahoma. As the governor alighted from the train whistles biew and cannon boomed and an immense crowd gathered about the station and gave him a mighty cheer of welcome. The president's secretary, Geo. B. Cortelyou, was the first person to meet him as he stepped from the platform. Carriages were in waiting. All along the line from the station to the McKinley residence nearly a mile, the streets were lined with people, and Governor Roosevelt was kept busy bowing his acknowledgments to the acclaims of the people of Canton. A brass band giving forth patriotic airs led the procession. The carriage in which Governor Roosevelt rode was surrounded with small boys shouting at the highest pitch of their voices, and by bicyclists, who seemed anxious to feast their eyes on the sight of the rough rider. The yard of the McKinley residence and the streets adjacent were literally packed with humanity when the governor alighted from his carriage and walked briskly toward the house. Then a tremendous cheer burst forth from the assembled multitude. President McKinley was standing on the porch waiting with outstretched hands to greet his associate on the national ticket.

When they shook hands the scene was

ate on the national ticket.

When they shook hands the scene was inspiring indeed. The assemblage was clamorous for speeches, and when something like quiet was restored the president introduced Governor Roosevelt in

dent introduced Governor Roosevelt in the following words:
"I cannot express the pleasure it has given me to see the enthusiastic welcome my fellow citizens have given to Governor Roosevelt and I now have the pleasure of presenting him to you."

The governor spoke but a few words, but his voice rang clear and loud and the great crowd had no difficulty in hearing him. He said:
"My fellow citizens: I thank you most cordially for the way you have come

cordially for the way you have come forward to greet me. I know that none

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the the germ could be magnified to a size equal to its terrors it would SET SE appear more terany fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sle is broken, it is time to guard against t

when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomech and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or other intoxicant.
"Your kindness to me I can never forget."

whisky or other intoxicant.

"Your kindness to me I can never forget," writes Mrs. Josic E. Clark, of Enterprise, shelby Co. Mo. "I had despaired of ever getting well. I had been in bad health for twelve years. Had aches all through me, numb hands, cold feel, and everything I ste distressed me, howels consilipated, was very introons, depressed and despondent. When I hast wrote to you I thought I could never be cured. I have taken six bottles of Dr. Pierce's Golden Medical Discovery, and my health is now good. You have my honest recommendation to all sufferers."

If the bowels are irregular they can be regulated perioctly by Dr. Pierce's Pleas-

alated perfectly by Dr. Pierce's Pleas-

of you, least of all my old comrades here, will grudge my saying that I thank particularly those who wear the buttons that show they fought in the great war. (Applause).

"I cannot say how I appreciate this coming as it does from the townsmen of the president who is now in a peculiar sense my leader and whom I shall follow and support with every ounce of sense my leader and whom I shall follow and support with every ounce of strength that there is in me, and, at least, there is to be said for our side that we know what we believe. In Kansas City they have had a little difficulty in finding out what they believe. I see by the papers that they had some difficulty, extending finally to a vote of 27 to 25, in putting in free silver. Now we believe with all our faith in a dollar worth a hundred cents. Apparently they have 52 per cent of faith in a 48 cent dollar. I do not intend to do more this afternoon than again to thank you most cordially, and to say that I appreciate what this greeting means, coming clate what this greeting means, coming as it does from the home of the presi-

"I shall try to show myself not wholly unworthy of the way you have met me this afternoon."

The president then retired into the house, but the crowd was not satisfied. The demands for McKinley were so persistent that at length he stenged.

field. The demands for McKinley were so persistent that at length he stepped out again upon the porch. A great cheer went up, which he silenced with a wave of his hand.

"I only appear," said the president, "that I may say to you that I am going to be with you most of the summer." Cheers and laughter followed this remark of the president, and the crowd soon after broke up. At dinner the only guests at the McKinley resi-dence hesides the regular household dence besides the regular household were Governor Roosevelt and Judge and

Mrs. Day.
President McKinley and Governor Roosevelt were in conference most of the evening, but nothing could be learned of the matters discussed. The governor left for New York at 10:50. "I am going direct to Oyster Bay to-morrow afternoon," he said, "and we are going to have some fireworks, a sort of belated Fourth of July for the children."

Governor Roosevelt refused to discuss he Kansas City platform or the can-

### AUCTION TODAY.

If You Want a House You Can Get One Cheap This Afternoon.

The auction of the houses east of the Santa Fe car shops this afternoon marks the first step toward the new Santa Fe shop improvements. Almost as soon as the buildings are removed, the Santa Fe company will be ready to etart work on the combined blacksmith shop and frog factory. The plans, which are being made under the direction of Superintendent of Machinery John Player, will be completed in a few days and sent to General Manager Mudge and Vice President Barr for approval. ager Mudge and Vice President Barr for approval.

The blacksmith shop and frog factory will be 400 feet long and 80 feet wide. It will probably be built of steel, although this is to be definitely passed upon by Mr. Barr. Whether the building will be constructed by contract or by the Santa Fecompany is a point that has not yet been settled.

AGAINST CHAMBERLAIN. Supreme Court Remands Topeka Broker Case For Trial.

The supreme court today denied the writ of habeas corpus by which W. L. Chamberlain sought release from the proceedings charging him with embez-alement instituted by J. B. Furry. The

proceedings charging him with embezglement instituted by J. B. Furry. The
latter brought suit against Chamberlain, who runs a bucket shop, charging
that between \$1,100 and \$1,200 deposited
by Furry for the purchase of raliread
stocks had been converted by Chamberlain to his private use.

The suits began in the city court, and
Judge McCabe bound Chamberiain over
to the district court. From this judgment he appealed by an application for
a writ of habeas corpus.

The court holds that the issues are
not determinable in a habeas corpus
proceeding and for this reason the court
is imable to determine the guilt or inmomence of Chamberiain. The court
states, however, that there is much evidence in the case to sustain the contention of Chamberlain, which is that
curry did not expect the delivery of
stocks. That it was a mere gambiling
transaction, bucket shopping." However, the court declines to pass
the merits of the case in this proceeding and refuses the writ.

A Good Cough Medicine.

A Good Cough Medicine.

A Good Cough metricine.

Many thousands have been restored to health and happiness by the use of Chamberlain's Cough Remedy. If affiliated with any throat or lung trouble, give it a trial for it is certain to prove benescial. Coughs that have resisted all other treatment for years, have yielded to this remedy and perfect health been restored. Cases that seemed hopeless, that the climate of famous health resorts failed to benefit, have been permanently cured by its use. For saie by all druggists.

Diphtheria relieved intwenty minutes. Almost miraculous. Dr. Thomas' Eclec-cic Oll. At any drug store-

Railroads Face to Face With a Serious Problem.

Freight Equipment Being In-

creased as Fast as Possible.

100,000 BOX CARS.

Number Needed to Transport the Wheat.

Require a Train 800 Miles Long to Haul Wheat Crop.

What will be the largest wheat crop Kansas has ever grown is being harvested. The railroads are making extensive preparations to handle the crop. The Rock Island by August 15 will have built 2,500 new boxcars which will go to swell the equipment and be used in the work of transporting the immense wheat crop to the markets.

Other roads have been just as busy but it is anticipated that with all the extra equipment the roads will experience great difficulty in handling the grain which will be offered them for transportation.

grain which will be offered them for transportation.

The wheat crop for this year in Kansas is estimated at least a hundred million bushels. The average freight car is 40 feet long. To handle this crop it will be necessary to use a hundred thousand cars. The magnitude of the crop may be clearly understood when it is known that if it were all loaded and made in one train the string of boxcars would reach a distance of over 800 miles, or from Topeka to Salt Lake City, or twice across the state of Kansas, or about 15 across the state of Kansas, or about 15 times the distance from Topeka to Kan-

times the distance from Topeka to Kansas City.

A train load consists of about 25 car loads. Figuring a train load at this number there would be something over 4,000 train loads. Should this be divided up evenly between the four roads and each road ran five wheat trains per day it would take 250 days for the four roads to get this crop out of the state. Should the weather prove as favorable to the corn crop until the crop is made, as it has up till this time, this year's crop will equal if not exceed last year's erop. That was over two hundred million bushels. Should the rallroads each haul five train loads of corn every day, about 500 days would be required to handle the corn. So it may readily be seen that the rallroads are face to face with a serious problem when it comes to planning for the movement of grain. Kansas has this year the largest crop in her history. The largest wheat crop previous to this year was in 1832 when something over 74 million bushels were raised. The next largest crop was in 1888 when the amount was over 60 million bushels. In 1892 the value of the crop was estimated at \$40,691,762.03 and in 1893 at \$32.337.004.28. This year if the prices remain up, and they have every prospect of doing so, the value of the wheat crop will be something like from 80 to 100 million dollars.

Last year the state of Kansas ranked fifth in the amount of wheat raised but it is quite probable that when the returns are in this year that it will be found that Kansas will be found at the top of the column.

Kansas has 105 counties. Fifty per cent of the wheat will be from 15 of these counties. They are Summer, Barton, McPherson, Rice, Rush, Pawnee, Russell, Sedgwick, Salina, Stafford, Reno, Mitchell, Ellsworth and Harper.

Wheat has not been damaged to any extent this year by insects. A new bug has been discovered in the wheat but it has done no harm as yet.

# STREET AGREES.

Water Works Controversy is Nearly Adjusted.

There is a prospect that the water question has at last been put on the Discuss Chinese Situation and How road to a speedy solution. The water

road to a speedy solution. The water committee, composed of Councilimen Hughes, Warner and Chaney, met with President Street and Manager O'Neal of the Topeka Water company Friday afternoon, and after talking over the matter of buying the plant, Mr. Street dictated the following:

"Topeka, July 6, 1990.

"At a meeting of the water committee of the city of Topeka and the president and manager of the Topeka Water company, held at the office of the mayor, to confer upon the subject of the sale of the plant of the Topeka Water company to the city of Topeka, it was suggested that the city of Topeka should nominate a competent he was suggested that the city of the peka should nominate a competent hydraulic engineer to meet a competent hydraulic engineer to be selected by the water company for the purpose of ascertaining the fair and equitable value of the property of the Topeka Water company.

"In event the engineers being unable

of the property of the Topeka Water company.

"In event the engineers being unable to agree upon a price it was suggested that they be authorized to select the third engineer after having first notified and counseled with the officers of the city of Topeka and the officers of the water company, the three engineers to then make a report of their findings. It is understood that this suggestion is not binding upon the waterworks committee until it has been approved by the council, and it is not binding upon the water company until it has been approved by the board of directors, which approval or disapproval shall be made by both parties not later than August 1.

"If a price is agreed upon the property shall be conveyed to the city of Topeka as soon thereafter as the city of Topeka as soon thereafter as the city of Topeka can negotiate its bonds and the Topeka Water company can convey title."

This was acceptable to the waterworks committee. The matter was not definitely settled, however, and a meeting was appointed for this morning at 1:30. There was a hitch at this meeting, and after discussing some changes in the appointment of appraisers the meeting adjourned to meet again at 1:30. Mr. Street was not satisfied with the suggestion in regard to the appointment of the appraisers and suggested that the city choose a number of men from which the water company would select a number of men and the city would select a number of men and the city would select an in Shawnee county. The original suggestlon made by President Street last night is the one the committee desires to have agreed upon, and it is probable that it will be done, as it is fair to both the city and the water company came to an understanding at the meeting this afternoon. The agreement is the same as the one proposed last night by Mr. Street, except that the word "ascertaining" is eliminated and "making a disinterested report as to" is inserted.

The agreement is tentative and is more to show good faith than for practical working. It is acceptable to bo

### OTIS SEES ROOT.

Many Troops Can be Spared. Washington, July 7—Gen. Otis arrived in Washington today from his home in Rochester, N. Y., in answer to telein Washington today from his home in Rochester, N. Y., in answer to telegraphic summones from the war department. He called immediately upon Secretary Root. The general spent the entire morning in close conference with Secretary Root, Gen. Miles and Adjutant General Corbin. In answer to an inquiry as to the nature of his business, he referred all questioners to the secretary of war, but the latter declined to make any statement on the subject. It is supposed that the general has been called to Washington to inform the authorities as to the military situation in the Philippines with special relation to possibility of calling on the troops there of further reinforcements for the United States forces in China. It is known that General MacArthur is reluctant to spare any more troops than the one regiment already taken from him, and in view of the delay of two months that would occur before any adequate number of soldiers could be gotten to China directly from the United States, it may be decided that the emergency warrants a change in policy in the Philippines, so as to secure the needed troops for China by a temporary contraction of military force of occupation.

### MRS. H. L. HALL IS DEAD

Well Known Society Woman Succumbs to Surgical Operation.

Mrs. H. L. Hall died Friday evening at 10 clock, having failed to recover from the effects of an operation performed Thursday, Mrs. Hall's health has been n a precarious condition for some weeks

In a precarious condition for some weeks but it was believed that the operation would insure her recovery. The funeral will take place Monday morning, from the residence, 1613 Van Buren street, at 9 o'clock.

Mrs. Hall was one of the most popular women in the society circle of young married people in Topeka. Mr. and Mrs. Hall have lived in Topeka and moved in society for nearly 13 years. The pleasant disposition and accomplishments of Mrs. Hall made her warm friends to whom the news of her death will be a shock, because it was believed that she would ultimately recover. shock, because it was believed that she would ultimately recover.

Mrs. Hall was Miss Jessie Snyder of Albany, N. Y. She was married to Mr. Hall, the junior member of the Hall Lithographing firm, at Minneapelis, Minn., July 13, 1887, July 13, next Friday, being the thirteenth wedding anniversary. They have lived in Topeka since a year after their marriage. Mrs. Hall at the time of her death was 32 years of age. Mr. Hall and a 10 year old son survive Mrs. Hall.

Mrs. Welton who lives five miles north of Topeka died this morning. The fun-eral will be held tomorrow morning at 9 o'clock.

# TO GO ON THE STUMP.

Roosevelt Will Start With the Opening of the Campaign.

Harrisburg, Pa., July 7.-Governor Roosevelt passed through here today on his way to New York. He said that he had an exceedingly satisfactory visit with President McKinley, an understanding having been reached concerning the campaign and just as soon as the campaign opened he proposed to go on the stump. Governor Roosevelt intimated that he was not in the least afraid of the ticket nominated at Kansas City

FAILED TO WORK. A Fire Extinguisher Which Would Not Extinguish.

The representative of a fire extinguisher manufacturing company gave an exhibition on the state house lawn this morning with a view to having the fire extinguisher adopted by the executive council for use in the state

A large box was built and covered with oil and tar. The match was touched to it and immediately the wood was in flames. The fire spread and soon the flames were leaping from ten to fifteen feet in the air. The fire was to fifteen feet in the air. The fire was allowed to gain a good headway before an attempt was made to extinguish it. The chemicals, a preparation which looks like fine sand, put out the flames all right, but the embers refused to quit burning. The demonstrator and his assistants then got busy with a hatchet and knives and hacked and whitted the embers off the boards. About two hundred persons witnessed the exhibition.

### OPENS AUGUST 1.

Republican Campaign to Commence Month Earlier Than Intended. Governor Stanley today consented to of September 1, as originally intended. This was done in response to repeated requests from the Republican state committee.

Call and see us whether just ready to purchase or not.

Hope to be in a new location soon with the addition of a full line of musical merchandise.

A. J. KING PIANO CO.

515 Kansas Ave.

J. L. COLE HURT.

After Being Thrown From Buggy Does Not Know His Name.

J. Is Cole, proprietor of the Metropolitan Manufacturing company, was thrown from a wagon at the corner of Third and Kansas avenue about noon today and badly injured. He struck on his head, and when he regained consciousness, denied that he had a name or a home, and said he hadn't driven a horse for a year. He was unconscious for several minutes. Cole was driving a horse hitched to a delivery wagon filled with empty burrels. At Second street a bolt holding the shaft on one side broke, letting it drag upon the pavement. This frightened the animal, and at the corner of Third street the wagon struck the curbing with sufficient force to throw Cole to the stone pavement. The horse continued south on Kansas avenue until opposite the store of the Swift & Holliday brug company, when he suddenly turned to the right and made straight for the door of the bhilding. When he struck the sidewalk he slipped and fell, and was caught before he could regain his feet.

Mr. Cole lives at the Chief Hotel on Kansas avenue. It is feazed that his brain is seriously injured. J. I. Cole, proprietor of the Metropoli-Mr. Cole lives at the Chief Hotel on Kaneas avenue, It is feared that his brain is seriously injured.

THIS IS SULTRY.

Temperature Not High But Weather is Oppressive.

The thermometer did not climb as high as it might this morning, but it was high enough. enough.

A great many people doubt whether the government thermometer is accurate of not. Yesterday the maximum was 22, while to the common perspiring individual it seemed at least eight points higher than that. Up to 11 o'clock this morning the maximum was 83 and the minimum in. The wind was southwest, blowing 16 miles an hour. The forecast is "showers and thunderstorms tonight and possibly Sunday. Continued high temperature."

VERLIN FAILS TO APPEAR. Bond of \$50 Ordered Forfeited in

District Court. James Verlin forfeited his bond of \$50 in the district court this morning by not appearing when his case was called. Verlin was arrested by the police and found guilty in the police court on the charge of gambling. He appealed the case. Herman Klauer was his bondsman and will have to pay over the \$50. An allas warrant was issued for Verlin and he will again be arrested on the same charge.

J. F. Hull is Dying. Mr. J. F. Hull, proprietor of the Hull Mr. J. F. Hull, proprietor of the Hungstove Repair company, is starving to death at Christ hospital. Mr. Hull was taken to the hospital some time ago suffering from brain fever, and his mind has become so deranged that he refuses to take any food. All the nourishment he receives is forced through a tube passed through his nostrils. Mr. Hull's death is only a question of a short time. His derangement of mind is due to acute diabetes.

Denver, Pueblo, Colorado Springs, and Return \$19.00 via Santa Fe.

FULL OF MUSIC The amount of music in a Piano does not always depend upon the price; oh, no! Lots of music may be bought for very little money. It is the case now when we sell modern styles, with all known improvements in mechanism or easy to the control of the ments in mechanism, on easy pay-ments, at \$225 and \$350. The time is not very far off when every home in the Union will be brightened by a Piano. And the "Time to buy is when someone wants to seil." We want to seil. We must introduce some of these new and most desir-able instruments. Shall be pleased
